Join us for a lecture by Dr. John McCarthy on how the beatific vision is the solution to ancient philosophical paradoxes. The lecture will be 45 minutes with a 15 minute period set aside for Q&A. Afterwards, there will be time for refreshments and further conversation.

John received his master's degree in philosophy from Boston College in 2015, was awarded the Lonergan Fellowship in 2014 and 2015, and has received his doctorate with a dissertation on Aristotle's Sophistical Refutations in the fall of 2018. As a teacher of Philosophy, Geometry, Astronomy, Ancient Languages, and Folk music, John's intellectual pursuits are varied. John enjoys studying the great minds of science — Ptolemy, Kepler, Mendeleev, Newton, and Einstein— but also enjoys stargazing and reading scripture.
